About this item

- [Reliable] Advanced encapsulation material with multi-layered sheet laminations enhance cell performance and provide a long service life. EL-tested solar panels; no hot-spot heating guaranteed. Bypass diodes minimize power drop caused by shade. TPT back sheet ensures smooth performance over a long period of time.
- [Durable] This 200 watt solar panel guaranteed positive output tolerance (0-3%); withstands high winds (2400Pa) and snow loads (5400Pa). A corrosion-resistant aluminum frame allows for extended outdoor use with a typical lifespan of decades. Anti-reflective, high transparency, low iron tempered glass with enhanced stiffness and impact resistance. IP65 rated junction box provides complete protection against environmental particles and low-pressure water jets.
- [Versatile] This solar panel can be used for many different applications. Ground mount compatible. Compatible with on-grid and off-grid inverters.
- [Installation Ready] Ready Pre-drilled holes on the back of the solar panel to allow for fast mounting and securing. Pre-drilled holes included for grounding. Compatible with different Renogy mounting systems such as Z-Brackets, Pole Mounts, and Tilt Mounts.
- [Proven Durable Quality] 10-Year Workmanship Warranty. Over 80% Output at 25 Years.

Product Description

The advertisement features the Renogy logo at the top right. The main text reads "200 Watt Monocrystalline Solar Panel" in large, bold letters, with "1000Wh Electricity Per day*" in a blue box below it. Below the text, there are four icons representing different applications: "Rooftop", "Camping", "Yacht", and "RV". A note at the bottom left states "*Depending on sun availability."

200W Monocrystalline Solar Panel from Renogy

Since 2010, Renogy has gained rich experience designing and manufacturing the most efficient and robust solar panels and complete off-grid solar systems. Renogy's focus on testing, quality control, and traceability ensures our solar power system offers industry-leading reliability. Invest in yourself by going Renogy. Renogy solar panels will be your most economical long-term investment yet.

Specifications

Maximum Power	200 W
Maximum System Voltage	600V DC (JUL)
Open-Circuit Voltage (Voc)	23 V
Optimum Operating Voltage	19.2 V
Optimum Operating Current	10.42 A
Short-Circuit Current	11.05 A

Maximum Series Fuse Rating	20 A
Operating Temperature	Operating Temperature
Product Dimensions	58.7x27.5x1.38 in
Product Weight	12 lbs / 26.46 kg
Output Cables	13 AWG (2.6 ft long)

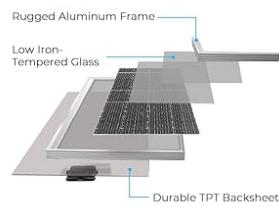

Grade A+ Monocrystalline

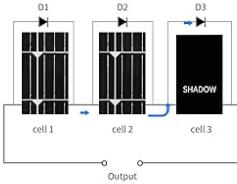

High Efficiency

- 22% cell conversion rate.
- EL tested, no microcracks, no hot spot. Ensures a longer lifespan and stable power output.
- Anti-reflective, low-iron tempered glass. Higher transparency, higher conversion rate.

Reliable and Durable

Bypass Diodes

IP65 Junction Box

IP65 Junction Box

- Complete protection against environmental particles and low-pressure water jets.

Weatherproof

- Withstands high winds (2400 Pa) and snow loads (5400Pa). Reliable in harsh outdoor environments, ensures longer lifespan.

Easy to Install

Installation Ready

- Comes with pre-drilled holes, including ground mounting holes for fast and convenient installation.
- Compatible with Renogy Z Brackets, Corner Brackets, Pole Mounts, and Tilt Mounts.

From the brand

Since 2010 we have been on a mission to change the way the world uses energy. We are committed to making a lasting impact on the earth by removing barriers to sustainable living and energy independence.

Our mission is to empower the energy independence of 50M people with DIY-friendly and reliable renewable energy products by 2030.

We are optimistic humankind can achieve a sustainable future where renewables are at the core of our energy supply.

6,685 global ratings

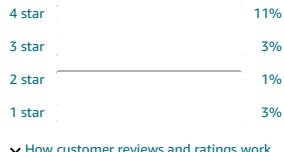

5 star

81%

Customers say

Customers like the quality, performance, value, efficiency, and ease of installation of the solar panel. For example, they mention it works well, produces wattage as advertised, and is a great investment. That said, some complain about the QC issues.

Amazon customer

Everything I was looking for, A real solar panel.

Reviewed in the United States on April 13, 2024
 Size: 175W Single Panel [Verified Purchase](#)

I originally tried to save money and buy a different brands and it turned into a nightmare. Inconsistent output and panel failures kept me quite busy with returns and installing new panels just to have them die within or just after the return period. After returning the other panels and buying 8 of these, I have to say I am totally amazed by the quality all around.

The box, how the panels were packed, how easy it was to remove the panels from the box, technical specifications with temperature coefficients on the panels itself. Each panel has an individual serial number for the warranty. This is something you won't find on a lot of 'cheaper' panels.

By paying the premium which in hindsight was well worth it, I received a 10 year warranty on the panel itself which is guaranteed to not have hot spots as it ages. The panel also comes with a guaranteed power output graph over the years. I have the specifications to know if the panel is failing or working as it should. Everything I've seen so far tells me they stand behind their products.

I love it..!

Reviewed in the United States on April 4, 2024
 Size: 100W Black Frame Panel [Verified Purchase](#)

My local RV repair owner advised me to step-up the size of my solar panel used to keep a charge on my motorhome's 4 12v parallel wired house batteries. After removing the much smaller and much lower output solar panel originally installed on the lid of one of the AC units, I installed the 100 watt Renogy panel you see in the photos. The panel did not come with mounting brackets (probably my error in ordering) so I purchased them separately through Amazon. I will not drill a hole in any roof, so utilizing the 3 existing mounting points that hold the AC cover on the coach's roof, I used tubular aluminum bar material readily available at the big box stores, a single exterior L bracket and stainless steel socket head cap screws with stainless washers and locknuts to mount the panel to the aluminum bars. Although it hovers over half of the AC exhaust fan, as you can tell by the last photo there is approximately 3" air gap between the top of the fan housing and the bottom of the solar panel. This will allow the full exit of the fan driven warm air. I couldn't be happier with the esthetics of how it turned out and I'll be monitoring the performance of the solar panel in the weeks ahead.

Got 110 watts input for several hours here in Florida

Reviewed in the United States on May 13, 2024
 Size: 100W-1 Set Z Brackets [Verified Purchase](#)
 Love the panel, just propped it up and was getting over 90 watts so I moved into a better position and got 110 watts for several hours. I was amazed. Getting the app to do anything never happened I just deleted it, Had to call for 2 days to try to register panel but finally got it done kinda? They sent an email showing 6 year warranty but I thought it was 10 who knows??? Long story short its amazing, My 1st solar panel but wont be my last renogy.

Renogy 100watt Solar

Reviewed in the United States on June 1, 2024
 Size: 100W Single Panel [Verified Purchase](#)
 Of course you won't get the full 100watts but it still works just fine. It's enough to keep my secondary and primary battery charged. Only time will tell how long these solar panels will last.

Works great

Reviewed in the United States on April 29, 2024
Size: 200W Single Panel [Verified Purchase](#)

I have a travel trailer that came with 190w go power panel and controller. This hooked up to my system easily with the correct wiring and is about half of go power price. If I had more space I would add another. They work great together. I bought the 200w single panel. Minus 1 star for not including the mounting brackets.

Touch efficient panel

Reviewed in the United States on April 29, 2024
Size: 100W+1 Set Z Brackets [Verified Purchase](#)

This is the third Renogy 100W panel that I bought. Back in 2018 I bought the kit that included 2 panels and PWM charge controller that I installed on my RV and those are still functioning great. This one that I just bought, I installed on my SUV to charge a solar power station. I live in at 6,400 ft elevation, and with clear sky at noon, it's getting 115 to 120 watts into the power station. I used the Z brackets to install the panel onto the roof rack cross bars.

This panel is great I wish I had more

Reviewed in the United States on May 23, 2024
Size: 175W Single Panel [Verified Purchase](#)

I like this solar panel because it's not the most expensive out there yet it gives me quality and reliable durability. It has endured a little hail storm though I don't recommend that but it held up to it no damage. Great but in my opinion

Performs better than expected

Reviewed in the United States on May 27, 2024
Size: 100W+1 Set Z Brackets [Verified Purchase](#)

For a mobile installation it works amazing. Full sun in ohio and it hits above 100w. Will be getting more of these. They are extremely sturdy and I have no issues on the highway.

You can always trust Renogy

Reviewed in Canada on May 12, 2024
Size: 100W Single Panel [Verified Purchase](#)

Most what I like is the compact size and weight of the panel. Came in no problems and worked from the get go! Bought some Z brackets for it too. Fits like a glove on top our Motorhome and keeps my batteries topped up all summer. Thanks Renogy you guys rock!
